

## Extension Installation

- 1) Disable the compilation mode if enabled
- 2) Log out from Magento admin panel if you are logged in
- 3) Unpack the contents of the module and upload it to your Magento root folder. It will not overwrite any core files.
- 4) Log into Magento admin panel
- 5) If cache control is enabled in Magento go to 'System > Cache Management' section, select all cache type, select 'Refresh' under 'Action' drop-down menu and press 'Submit'
- 6) Now it will show you in main navigation menu.

- 7) Click on 'Mento -> Promote Products' from top navigation menu. It will show you page like below

- 8) Click on 'Create API User & Role' button. That's it. It will create your Mento account if you are not registered user. It will display Mento panel with your product details and suggests tweet and Posts
- 9) You can now also access your store from Mento panel
- 10) You can run the compilation mode again if necessary
